MESSAGE

As we look to the future one thing is certain – knowledge will be a key resource and will be highly sought-after. The challenge is to educate and train people so that they will be valued for their specialised knowledge, skill and for their ability to research, communicate and solve problems.

Khallikote (Cluster) University, Berhampur is expected to meet these challenges by building collaborative partnerships with leading Universities, industry and research institutions. I would like to urge upon the University to provide students with every facility, to fulfill their potential and develop an attitude to life that will serve them for their life beyond the boundaries of the University. It is also equally important that the University ensures the relevance of its academic programmes and strive for continued excellence in teaching, learning and research.

I send my best wishes to students, teaching and non-teaching staff and all stakeholders of the University and wish the University all success.
